Press Release

OTIS Korea Member No. 300 of EtherCAT Technology Group

The well known elevator company OTIS is member number 300 of the EtherCAT Technology Group. OTIS is the world's largest company in the manufacture, installation and service of elevators, escalators and moving walkways. In Korea one of their engineering and R&D centers is located. OTIS Elevator Korea had joined in April and was honored at an EtherCAT Training Class in Seoul.

The EtherCAT implementation seminar in Korea experienced strong demand: Within just one day the 3day class was fully booked.
33 attendees from 15 companies represented the typical Korean industries: Semiconductor and electronic manufacturing firms attended as well as developers from the heavy industry. EtherCAT Implementation-Workshops take place in Europe, North America and Asia. About half of the meanwhile 338 member companies from 26 countries – among those many end users – have purchased EtherCAT implementation kits.

The **EtherCAT Technology Group** is an international user and vendor organization in which key user companies from various industries and leading automation suppliers join forces to support, promote and advance the EtherCAT technology.
