ETG Safety over EtherCAT Seminar on Tuesday, Mar 17th, 2009

Dear ETG Member,

Functional safety is becoming a crucial selling point - if your product portfolio provides no answer to this question yet, it is time to think about it: we invite you to participate in the Safety over EtherCAT Seminar at the Mercure Hotel Wings Airport Residenz Rhein Main in Raunheim, conveniently located close to the Frankfurt Airport.

Decision makers, product manager as well as R&D engineers who are involved in their companies safety product strategy are invited to this seminar. We will give you a comprehensive overview about today's requirements for safety machine architectures with the focus on safety communication with the Safety over EtherCAT protocol. Learn about the technology and its implementation.

Safety over
EtherCAT[®]

Use this seminar to improve your safety strategy!

**The Safety over EtherCAT seminar starts at 2 p.m. (Mar 17th), registration starts at 1:30 p.m.
End of the training will be around 5 p.m.**

There is no participation fee, only the meeting package (details please see last page) has to be paid directly to the hotel. Please register as soon as possible, the number of participants is limited. Registration deadline is Monday, March 9th.

We are looking forward to welcoming you at the Safety over EtherCAT Seminar!

For registration please go to the last page of this document.

Please do not hesitate to contact us if you have any questions.

Best Regards,

Martin Rostan
Executive Director
EtherCAT Technology Group

ETG Safety over EtherCAT Seminar

Agenda:

Tuesday, March 17th, 2009

1:30 p.m.	Registration
2:00 p.m.	Safety over EtherCAT Seminar
3:30 p.m.	Coffee Break
	Safety over EtherCAT Seminar
~ 5:00 p.m.	End of seminar

We will address the following topics:

- What are the relevant standards?
- How to build a safety system compliant to the IEC 61508?
- What are the needs and efforts for your company?
- Are there ready to use solutions available (Make or Buy)?
- How to integrate Safety over EtherCAT in your product?
- Can I still use my standard EtherCAT Master and infrastructure?

And last but not least:

- What are the benefits for your company and for the end-user?

Of course there will be time for Q&A!
