Announcement: ETG Semi TWG / Meeting 03
May 08 - May 10, 2012, Fremont, CA, USA

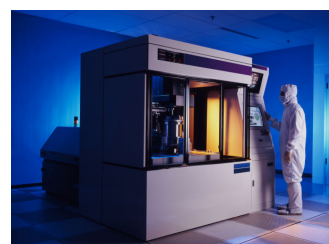

March 05, 2012

Dear ETG Semi TWG Member,

In continuation of our efforts to develop device profiles for EtherCAT in the semiconductor manufacturing industry, we announce the details for the next Technical Working Group meeting:

ETG Semi TWG / Meeting 03:

The meeting will be hosted by ETG member company Lam Research Corporation, Fremont, CA, in the Silicon Valley.

Date: May 08, 2012 — May 10, 2012
Location: Lam Research Corporation
4650 Cushing Parkway
Fremont, CA 94538, USA

REGISTER ▶
online today!

www.ethercat.org/registration_semi_twg

Agenda:

We will try to finish our collaboration on the device profiles in progress. These include: Common Device, Mass Flow Controller, Vacuum/Pressure Gauge, Process Control Valve, RF Generator, DC Generator, RF Match, Temperature Controller, Turbo Molecular Pump, Roughing Pump, and Abatement System. Additionally, the TWG will wrap-up discussions and complete the requirement documents for the Master Profile and Firmware Update.

Schedule:

Tuesday, May 08, 2012 through Thursday, May 10, 2012. Tue 9-5, Wed 9-5, and Thr 9-3

Registration deadline is Friday, April 13, 2012:

Please register online (link above) as soon as possible. Meeting space is limited and we may be forced to close registration early if participation exceeds meeting room capacity. Thanks to Lam Research there is no meeting charge.

Venue:

Venue information and hotel recommendations can be found on the following page. Space is limited and published rates cannot be guaranteed, so we recommend you book your hotel room as soon as possible.

If you have any questions, please do not hesitate to contact us.

Best regards,

Dan Judd
Chairman
