### What is EtherCAT?

- EtherCAT (Ethernet for Control Automation Technology) has conquered the industrial networking world and is now the standard for many leading automation and controls vendors around the world. With numerous benefits in terms of performance, cost, ease of use, flexibility, built-in diagnostics, and cyber resilience, EtherCAT is the fieldbus of choice for good reason.

### Who should attend?

- This free-of-charge seminar is geared toward automation professionals, device manufacturers, system integrators, product managers, decisions-makers, and students. Here, you will learn about EtherCAT and Industrial Ethernet, along with the impact of current trends.

### Why attend?

- Learn about the benefits and challenges of Industrial Ethernet
- Explore and understand EtherCAT technology
- Talk face-to-face with an EtherCAT expert, and see how EtherCAT can accelerate your application or project
- EtherCAT seminars are educational events from the EtherCAT Technology Group

### About ETG

- EtherCAT Technology Group (ETG) is the world's largest Industrial Ethernet Fieldbus organization with over 8900 member companies from 80 countries who support EtherCAT technology.
