What is EtherCAT?

- EtherCAT (Ethernet for Control Automation Technology) is the fastest Industrial Ethernet solution that sets industry benchmarks in performance, flexibility and cost efficiency.

Who should attend?

- This free-of-charge seminar series is addressed to automation professionals, device manufacturers, system integrators, product managers, decision-makers, and students. Here, you will learn about EtherCAT and Industrial Ethernet, along with current trends such as gigabit performance for EtherCAT and cybersecurity.

Why attend?

- learn about the benefits and challenges of Industrial Ethernet
- explore and understand EtherCAT technology
- talk face-to-face with an EtherCAT expert, and see how EtherCAT can accelerate your application or project
- EtherCAT seminars are educational events from the EtherCAT Technology Group (ETG)

About ETG

- EtherCAT Technology Group (ETG) is the world's largest Industrial Ethernet Fieldbus organization with over 7,200 member companies from 72 countries who support EtherCAT technology.

Use the chance to talk to the EtherCAT experts and product specialists and discover some EtherCAT demos on site.

Agenda

- Registration and welcome
- Cold breakfast, table top exhibition
- **EtherCAT: The how and the why**
EtherCAT Technology Group, Martin Rostan
- Hot breakfast, table top exhibition
- **EtherCAT in practice: Cyber security, installation and diagnostics**
EtherCAT Technology Group, Martin Rostan
- **EtherCAT G: even more bandwidth for the future**
EtherCAT Technology Group, Martin Rostan
- **User Benefits: Winning business with EtherCAT**
EtherCAT Technology Group, Martin Rostan
- Q&A, wrap-up, table top exhibition

Presentations will be held in English.
Order and titles of presentations may vary.

BECKHOFF

www.beckhoff.com

Beckhoff implements open automation systems based on PC Control technology. The product range covers Industrial PCs, I/O and Fieldbus Components, Drive Technology and automation software. Products that can be used as separate components or integrated into a complete and seamless control system are available for all industries. The Beckhoff "New Automation Technology" philosophy represents universal and open control and automation solutions that are used worldwide in a wide variety of different applications, ranging from CNC-controlled machine tools to intelligent building automation.

Beckhoff South Africa has offices in the following cities:

- Headquarters South Africa in Randburg
- Sales offices in Cape Town, Durban and Gqeberha
