What is EtherCAT?

- EtherCAT (Ethernet for Control Automation Technology) is the fastest Industrial Ethernet solution that sets industry benchmarks in performance, flexibility and cost efficiency.

Who should attend?

- The free-of-charge seminars from the ETG are geared toward automation professionals, device manufacturers, system integrators, product managers, decisions makers, and students. Here, you will learn about EtherCAT and Industrial Ethernet, along with the impact of current trends.

Why attend?

- Learn about the benefits and challenges of Industrial Ethernet
- Explore and understand EtherCAT technology
- Talk face-to-face with an EtherCAT expert, and see how EtherCAT can accelerate your application or project
- EtherCAT seminars are educational events from the EtherCAT Technology Group (ETG)

About ETG

- EtherCAT Technology Group (ETG) is the world's largest Industrial Ethernet Fieldbus organization with over 8600 member companies from 80 countries who support EtherCAT technology.

Timetable | Agenda

Timetable

- Registration on site: 9:00 am
- Start of seminar: 9:30 am
- End of seminar, lunch: 1:00 pm

Talk face-to-face with EtherCAT experts and product specialists, and get hands on with EtherCAT demos on site.

Food and beverages are offered free of charge.

Order and titles of presentations may vary.

Agenda

- Registration, tabletop exhibition, welcome
- **EtherCAT: The how and the why**
EtherCAT Technology Group, Martin Rostan
- **Better diagnostics leads to less downtime**
EtherCAT Technology Group, Martin Rostan
- **EtherCAT: cybersecurity made easy**
EtherCAT Technology Group, Martin Rostan
- Coffee and tea break, tabletop exhibition, ask the experts
- **EtherCAT success stories by Beckhoff**
Beckhoff Automation
- **How to use EtherCAT to get more business**
EtherCAT Technology Group, Martin Rostan
- Q&A, wrap-up
- Lunch, tabletop exhibition, ask the experts

Beckhoff implements open automation systems using proven PC-based control technology. The main areas that the product range covers are industrial PCs, I/O and fieldbus components, drive technology, automation software, control cabinet-free automation, and hardware for machine vision. Product ranges that can be used as separate components or integrated into a complete and mutually compatible control system are available for all sectors. Our New Automation Technology stands for universal and industry-independent control and automation solutions that are used worldwide in a large variety of different applications, ranging from CNC-controlled machine tools to linear transport communications for intralogistics.
